

Connecticut River Conservancy's Source to Sea Cleanup **HAZARDOUS MATERIALS REPORT FORM**

Please do not handle any item that you believe may be a hazardous substance! This includes any substance labeled: CAUSTIC, TOXIC, CORROSIVE, POISON, FLAMMABLE, WARNING, DANGER, or CAUTION. Unmarked containers or barrels that look corroded may also contain toxic waste. Avoid touching or opening closed or suspicious containers. See the other side of this sheet for a list of hazardous materials.

Instead, fill out this form, and give it to the group leader. **Group leaders should reference the Tips & Best Practices section on the Register a Group page on our website (www.ctriver.org/cleanup) for emergency phone numbers and disposal contacts in CT, MA, NH, and VT. Hazardous materials must be reported.**

Please give the best description you can **safely** make, so that environmental authorities can locate the item & bring the proper equipment for removal (*i.e.* - *does it look big and heavy?*).

DESCRIPTION OF MATERIAL - Fill in all spaces that apply

Container shape (barrel, bucket, etc.): _____

Size: _____

Estimated weight (don't touch): _____

List any identifying labels: _____

Color of container or substance (if visible): _____

Odor: _____

Other: _____

LOCATION OF MATERIAL - If you can, please flag a tree or other object with flagging tape on the road providing access and also flag the area next to the hazardous material.

Brief site description: _____

Name of stream/river hazardous material is in or near: _____

Name of nearest road: _____

Name of any nearby crossroads: _____

Prominent landmarks at road or site: _____

Please add additional comments or site sketch on the back of this page. Thank You.

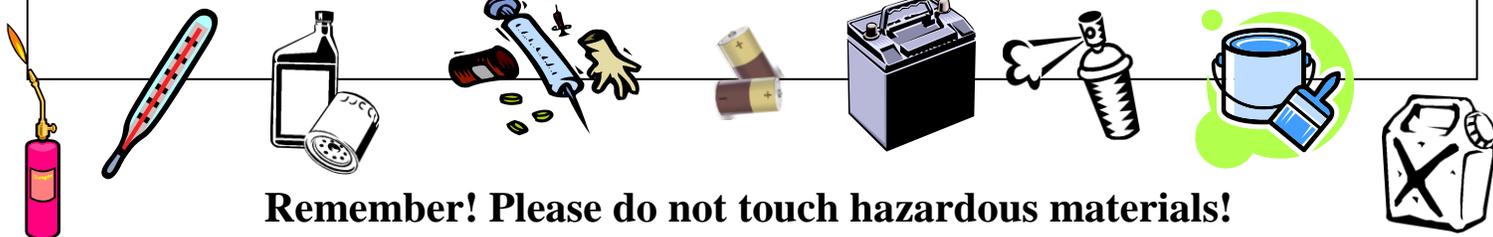

HAZARDOUS MATERIALS

Any substance labeled:
CAUSTIC, TOXIC, CORROSIVE,
POISON, FLAMMABLE, WARNING, DANGER, CAUTION

- | | | | |
